FALL PLOWING IS ALREADY STARTING

Louisville, Ky., Sept. 7.—Moderate to heavy rainfall in the northeastern counties, following good rains in the previous week, practically broke the drought in that section. Late crops show considerable improvement, the condition of late corn and tobacco in that district ranging from fair to good. Stock water has been replenished and pastures are reviving. Only light scattered showers occurred in most of the central and western portions of the state, where the drought continues, and was intensified by the unseasonably high temperature. In those districts late corn and tobacco are scarcely growing and are in poor condition, especially in the hilly region. Pastures continue short and dry, and feeding of stock has been resorted to in places. Early corn is drying rapidly, and the quality of the grain is good. Cutting has commenced in the southern counties. Most early tobacco has been already cut and housed somewhat earlier than usual because of "firing" and premature ripening due to drought. In most of the state weather conditions were favorable for speedy curing and good quality of leaf, but the yield is much reduced on account of drought.

Fall plowing is beginning in the northeast counties, where the soil was softened by heavy rain. Very little plowing has been done in the remainder of the state, where the soil is generally too dry to be worked. The late sown cowpeas will be benefited by the rains in the eastern counties, but in general this crop has been seriously damaged by the dry weather. Late potatoes improved and are growing fairly well in most of the eastern half of the state; but they are in a critical condition in the western half. Some young clover has been killed by drought. The fourth crop of alfalfa is about ready to be cut, but the yield will be short. Rain is badly needed in central and western districts.

HOW TO TELL IF MILK IS NOT FRESH

(By Associated Press)
Pittsburg, Pa., Sept. 7.—Sea-weed kelp, automobile engines, and just plain milk were the widely different subjects discussed at the opening day of the American Chemical Society convention now being held here.

On the platform before the delegates, where usually symphony orchestras perform, a motor engine afflicted with "knocking" played the chief overture of the day, while chemists listened, as intently as opera lovers do to "Carmen," to the effect of the introduction of a chemical compound, invented by Thas. Midgley, Jr., and T. A. Boyd, of Dayton, on the "knocking" discords. "Chemicals whose action is similar to those known as 'catalysts' even if present only in the most minute quantities," said Mr. Boyd "can eliminate to a great extent the knocking which is most injurious to engines." The gasoline symphony played on cylinders was to prove his contention.

Sea-weed kelp, which contains iodine and other elements common in sea water and believed to be beneficial in preventing goitre, was explained to be a necessary part of the diet of those who live so far inland as to be deprived of sea food in quantities. J. W. Turrentine, whose activities resulted in the establishment of the kelp industry on the Pacific coast, introduced the sea-weed kelp in its new role to the chemists. "The new form," he said, "admits of cheap preparation and preservation, and is easily available for the afflicted people of all countries."

Housewives' uncertainty as to the youth or age of the contents of the bottle found with the news paper on the porch each morning is the reason for the prominent part of milk in today's meeting. "Methylene blue," a dye, is cleverer and more sure than the nose in detecting the age of milk," said Minnie F. Dresslar, who demonstrated the action of the dye in discoloring old milk and remaining clear in new. Seven other dyes may be used with equal success, the scientists say.

ASSIGNMENTS IN DANVILLE DISTRICT

The complete list of assignments for the Danville district as made by Bishop U. V. W. Darlington at the Harrodsburg conference last week is as follows:

Presiding Elder C. L. Bohon. Bryantsville and Mt. Olivet. A. P. Jones; Burgin and Joseph's Chapel, E. L. Ockerman; Burnside, S. J. Bradley; Clay County Mission, C. F. Chesnut, supply; Corbin, O. C. Seavers; Clay Lick, D. W. Young, supply; Danville, J. M. Fuqua; East Bernstadt, G. A. Young, supply; Ferguson and People's Chapel, R. Z. Newton; Gravel Switch, L. E. Otter; Harrodsburg, J. D. Redd; Lancaster, H. W. Whitaker; London, T. J. Francis; Lynch Mines to be supplied; Mackville, H. T. Bonny; McKendree, S. W. Dean; Meadow Creek, to be supplied; Middleboro, W. K. McClure; Middleboro Circuit, M. L. Gamble; Moreland, J. E. B. Cowan; Perryville, J. Frank Richardson; Pineville, B. C. Gamble; Prea hersville, J. H. Lewis; Pulaski, Jennings Hohn; Richmond, W. O. Sadler; Somerset, J. L. Clark; Stanford, E. K. Arnold; Wilmore, W. L. Clark; Wilmore Circuit, T. W. Beeler.

Under Wilmore Quarterly Conference: President of Asbury College, H. C. Morrison; president of Taylor University, John Paul; general evangelist, Andrew Johnson; conference evangelists, J. A. McClintock, J. W. Hughes, F. T. Howard; students at Asbury College, W. K. Mackey and L. J. Goodrich.

WHITE HALL

Mrs. Eugene Todd spent the week-end in Irvine the guest of her sister, Mrs. Chenault Duncan. Miss Mamie Sexton very delightfully entertained a number of her friends last Tuesday evening.

Mrs. Lucy Scudder Collins and children of Paris, were the guests of Mrs. Frank Burgin Thursday. Mrs. G. W. Deatherage, Mrs. Raymond Works and children spent the week-end with relatives here.

Mrs. Gordon Burgin has returned from a pleasant visit to her niece, Mrs. Chester Long, of Independence.

SAM COLLINS GETS GOODS ON IKE MILLER

A large touring car of Isaac Miller, wealthy Fayette county farmer, well known here, and a quantity of whisky and gin were confiscated at Lexington by Prohibition Director Sam Collins. Mr. Miller was arrested and placed under \$5,000 bond to appear before United States Commissioner Charles N. Wiard on Monday, to answer charges of possessing and transporting whisky.

Miller also gave bond of \$6,000 for his machine, George Johnson, negro chauffeur, accompanying Miller, was arrested and placed under \$1,000 bond. The liquor consisted of two pints of red whisky and two quarts of gin, found in the rear of the machine, Director Collins said.

Mr. and Mrs. Collins had started home for lunch when they saw Miller's car going north on Limestone street. Mrs. Collins turned the car she was driving and followed the Miller car to a soft drink stand on Mill street. At this place Miller is alleged to have stopped and taken something from the machine into the soft drink stand.

When Miller started away in his car Mr. and Mrs. Collins followed him to Short street where he stopped in front of a garage and was arranging something in the back part of the car.

Director Collins jumped from his automobile to the running board of Miller's car in time to see the four bottles, which Mr. Collins said, Miller was wrapping in paper.

Miller is under indictment in federal court at Richmond for alleged complicity in the illegal removal of whisky from distilleries in this section of the state.

PANOLA

Mrs. D. P. Walton was the guest of Mrs. Susie Bicknell Wednesday. Mrs. Price Lay, of Noland, spent Wednesday with her mother, Mrs. E. B. Crowe. John Cox and mother, of Ohio, arrived here to visit relatives; also to locate a farm. Leonard Lay and family, of Noland, and Thomas Kirby and family were the guests of D. P. Walton and family Sunday.

FRECKLES AND HIS FRIEND

AUCTION SALE

OF

Land and Personal Property FRIDAY, SEPTEMBER 15th 1922

At 10 o'clock A. M.—Rain or Shine
WE WILL SELL FOR

JOHN W. ADAMS

HIS

119 ACRE FARM

Near Union City, Kentucky

This farm contains 119 acres, 6 miles from Richmond, 1-2 mile from Union City, on the College Hill Road. The improvements consist of 5 room house, 1 stock barn, 1 tobacco barn, all necessary outbuildings, 2 acre orchard (a good one), 2 wells, 3 springs, 2 ponds; fencing good.

This farm is gently rolling and plenty of good corn and tobacco land available for cultivation. This year's crops will speak for the quality of the land.

Look at this farm and take everything into consideration; and last but not least, the location in 1-2 mile of Union City, a thriving little town with stores, churches, garage, and one of the best High Schools in Madison county. It is seldom one has the opportunity to purchase such a farm and location at his own price.

At the same time and place will sell the following

Personal Property

1 saddle horse
1 work horse
1 pair aged mules
5 milch cows
1 Jersey heifer
2 brood sows
5 shoats

1 corn cutter; 1 wagon
Harness and saddle
1 cream separator
Farm machinery
And other things too numerous to mention.

The fact that Mr. Adams is leaving the county constitutes his only reason for selling this nice little home. For further particulars see the owner or call at our office and we will be glad to show you this farm.

Terms—One-half down; balance in 1 and 2 years. Possession January 1, 1923.
